THE HONORABLE
GOVERNOR OF OKLAHOMA
MEMBERS OF THE OKLAHOMA LEGISLATURE

The 1978-79 Annual Statistical Report on education finance and related statistics from the Oklahoma State Department of Education is submitted in the pages of this book for your examination and reflection.

While the content of this book is but a quantitative report, it is but a shadow of the qualitative work of Oklahoma's educators. In no way can these figures, important though they are, begin to reflect the real message of education in our State.

The facts and figures in this book can only tell you numbers, like the 353 new special education and gifted/talented programs underway, the 10 new programs for the deaf and the legally blind, the 358 new elementary counseling programs, the 20 new library/media programs and the 28 new community education programs that are a part of the educational scene in Oklahoma.

The real meaning, the great value, is in the children being served, the families being helped, the future that is being built in the minds and hearts of today's young people who will become tomorrow's grown up people who will take our place in society.

Oklahoma's educators are encouraged by the continued support of our Legislature and look forward to its continuation. We firmly believe, and we think you will agree, once you have familiarized yourself with the education activities underway, that in Oklahoma, every year is the year of the child.

Respectfully submitted,

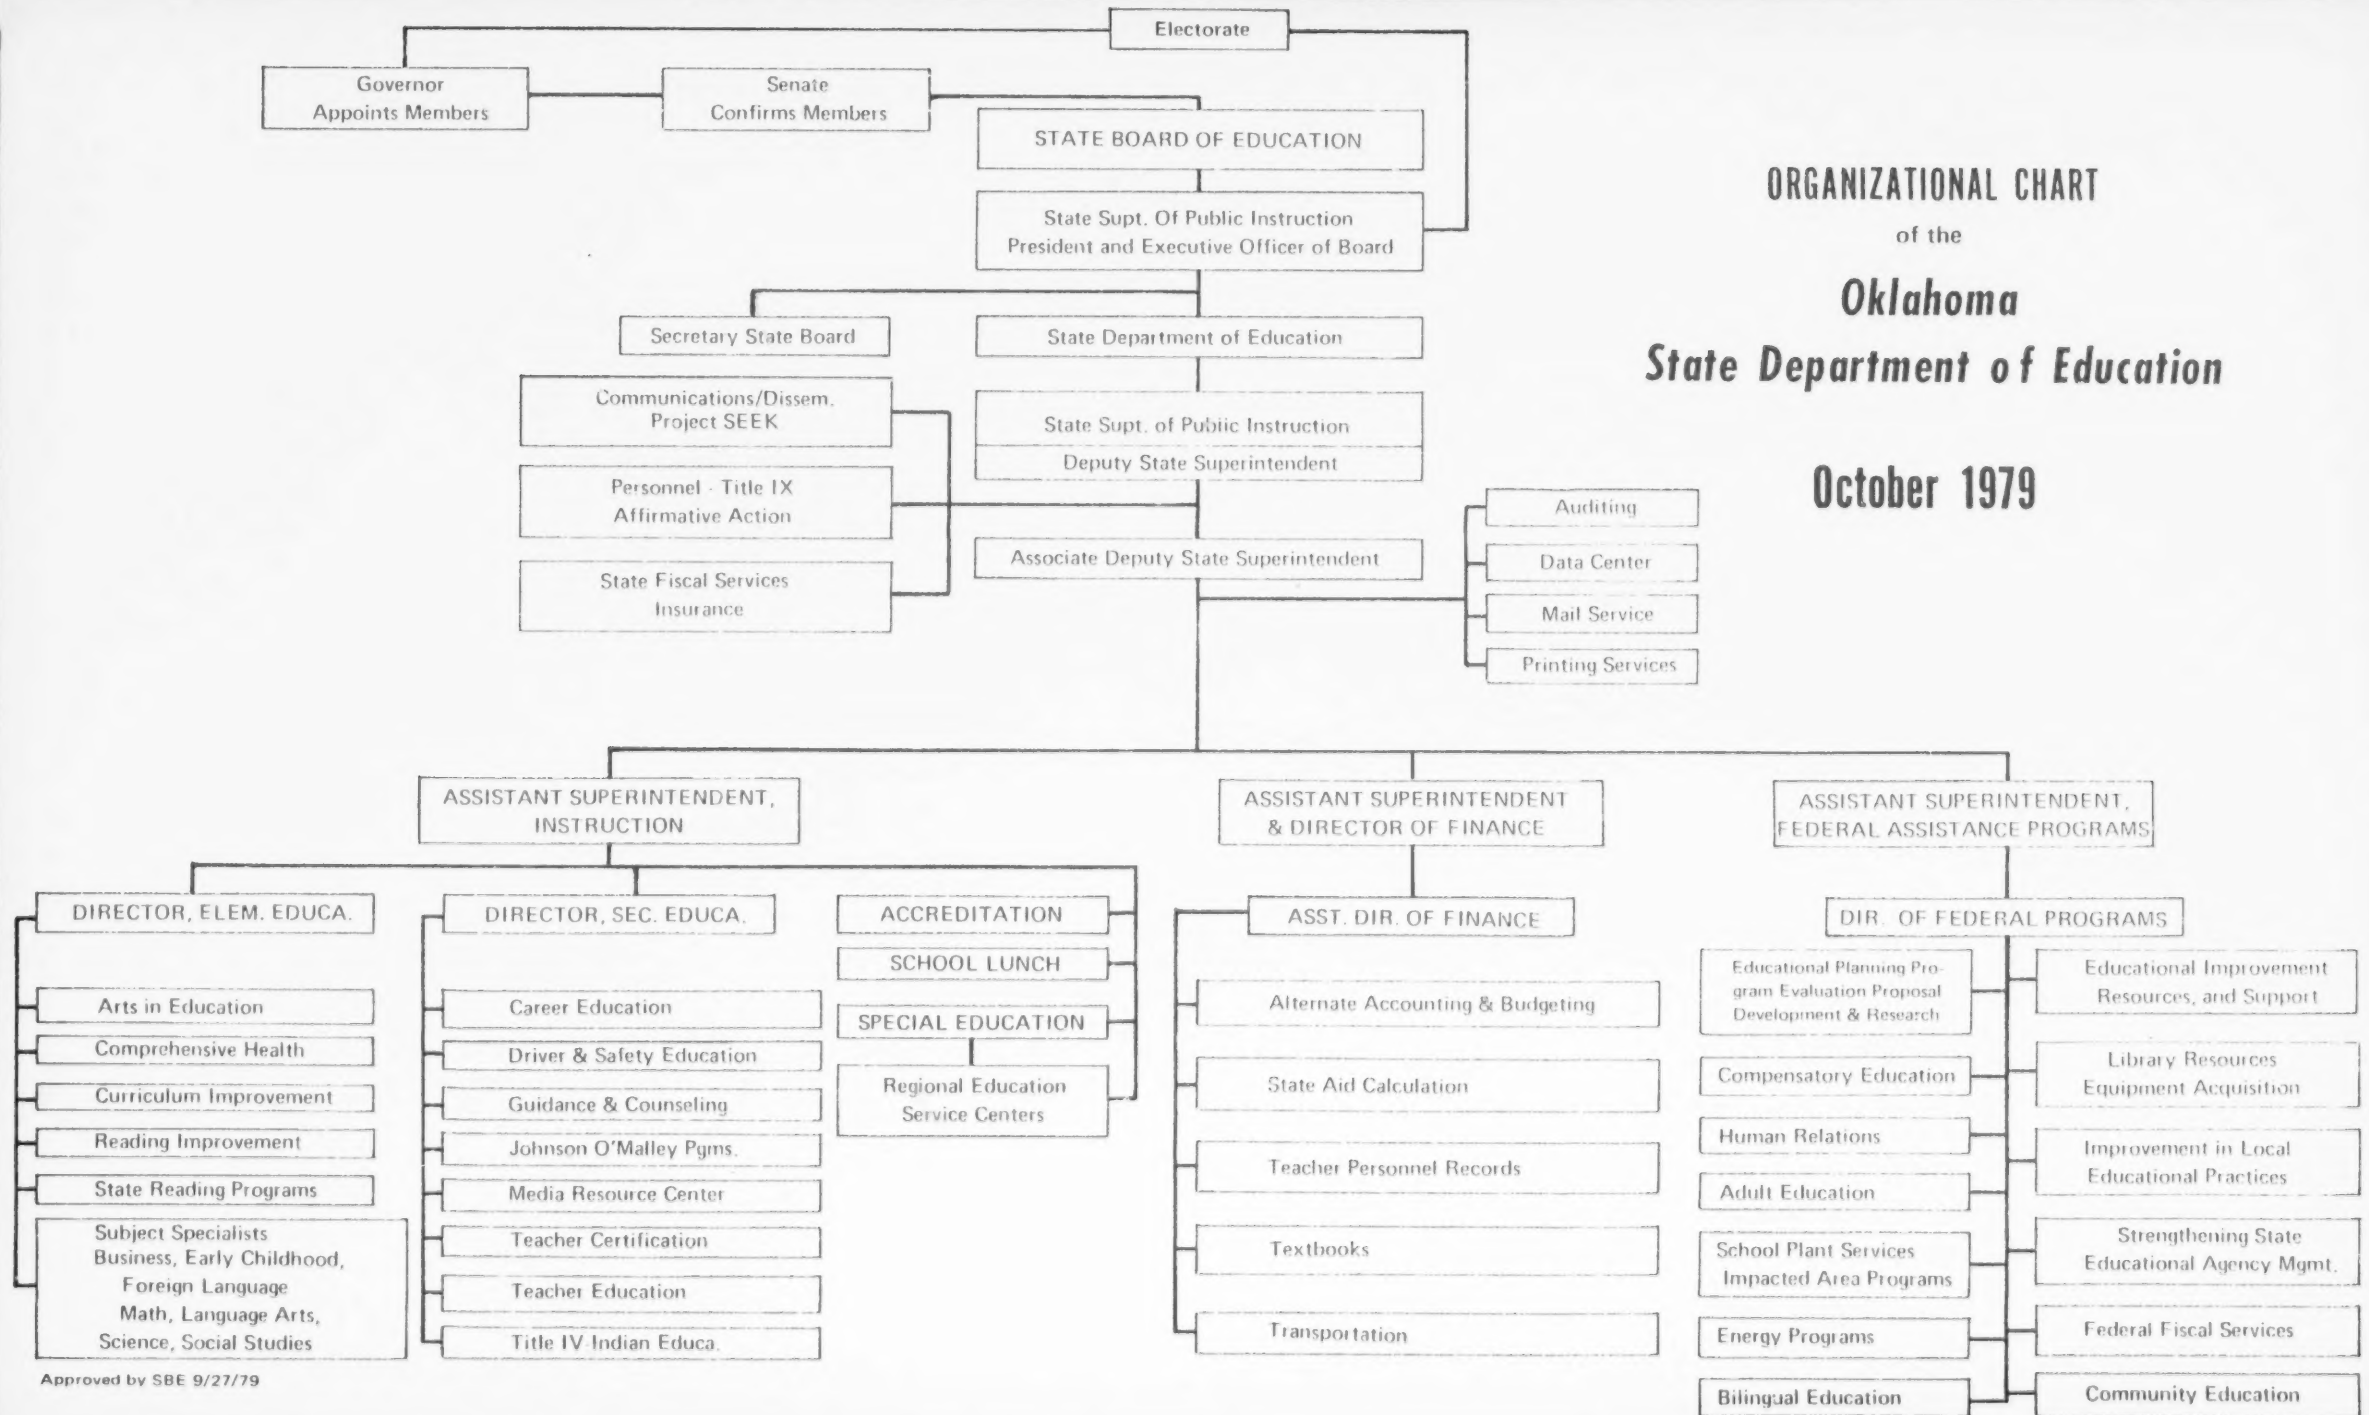

Leslie Fisher
State Superintendent of Public Instruction

Financial Statement of Johnson-O'Malley Indian Education Funds
for the fiscal year ending 1979

BRIEF SUMMARY OF THE DUTIES OF THE
JOHNSON-O'MALLEY INDIAN EDUCATION SECTION

The goal of the Johnson-O'Malley Indian Education Section of the State Department of Education is to improve the educational opportunities of eligible Indian students. In the 1978-79 school year there were 16,520 students with one-fourth or more degree Indian blood attending 179 schools in areas where there is a high Indian concentration.

The Johnson-O'Malley Act provides funding for innovative and supplemental programs to meet the unique needs of Indian students. These may include, but are not limited to, remedial education, guidance and counseling, tutorial services, in-service training for teachers, and educational support materials.

The Johnson-O'Malley Indian Education Section has an office staff of six: Director, Administrative Officer, Program Development Officer, Administrative Assistant, Account Clerk and Typist Clerk. Ten professional Coordinators live and work in areas that have a high percentage of Indians. They serve as liaison between the Indian community, Indian parent committee, Indian students, and the school administration. The Coordinators do extensive counseling of students and parents in their homes.

Funds available to the program are determined by the amount of the annual contract between the Bureau of Indian Affairs and the State Department of Education. Approximately two million dollars in federal funds are received to support the Johnson-O'Malley Indian Education Program.

State Aid
Raymond Patton, Administrator

The following is the formula, as provided by law, used in the calculating of Foundation and Incentive Aid. It reflects the correct amounts and factors in use today. The two equalizing factors in the formula are:

- (1) The chargeable income in the Foundation Aid section. This reflects the districts ability to support itself at home.
- (2) The district wealth ratio in the Incentive Aid section. This reflects the school districts valuation per A.D.A. in relation to the State valuation per A.D.A.
